

H.A.G. RAY

1956

YEAR BOOK

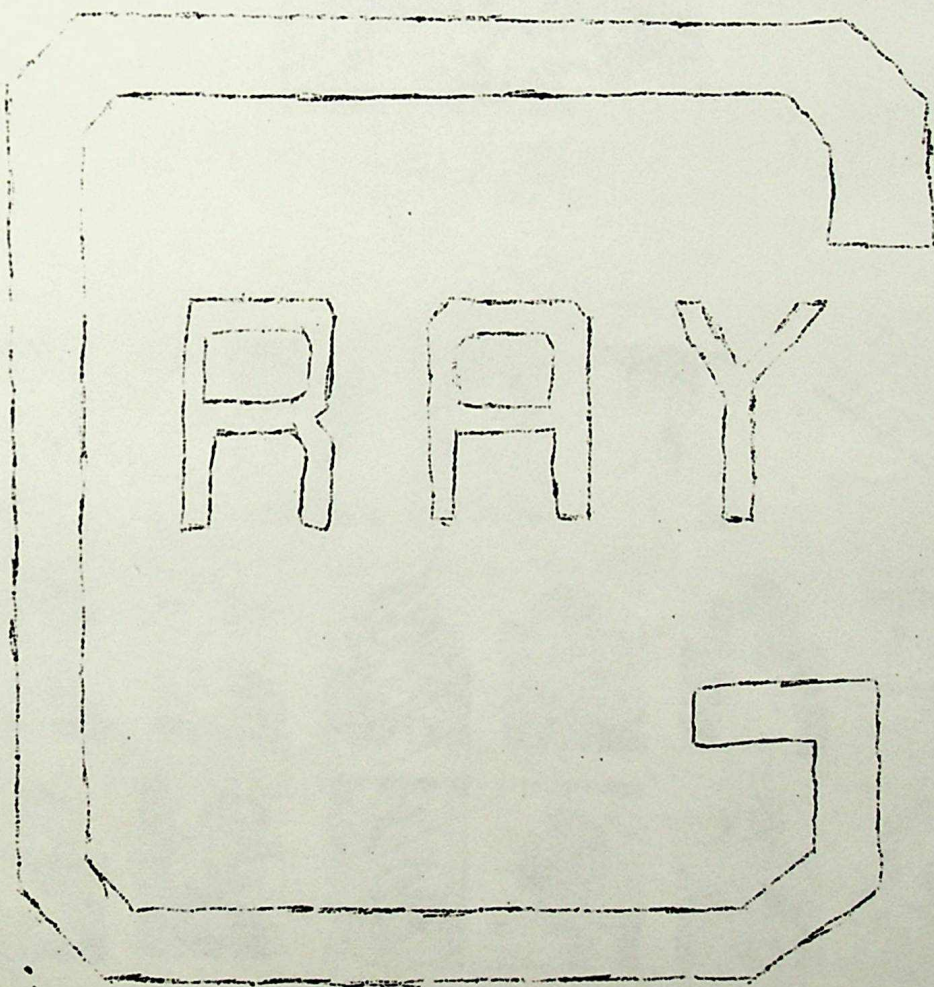

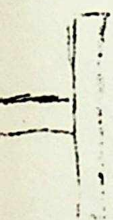

*[Handwritten signature]*

The image shows the front cover of an old book. The cover is made of a light brown, textured material, possibly paper or cloth, which is heavily aged and discolored. There are numerous dark spots, stains, and areas of discoloration across the surface, particularly along the edges and in the center. The texture appears rough and uneven. There is no visible text or title on the cover. The overall appearance is that of a well-used, antique volume.

MR. COLEY  
(principal)

PRESS and

PRINTERS

### A MESSAGE FROM MR. OOLEY.

Did you know that H.A. Gray school has a history dating back some forty two years? Did you know that the school was named after an English bishop who was a pioneer in Alberta? That Miss Mary Dickson went to school here when she was a little girl? That 'Boomer' McPherson of Montreal Canadian fame, used to play hockey in our house-league? That for twenty five years, you couldn't drive a car to the front of the school in the spring on account of the mud? That a principal was fined ten dollars for driving his car on the asphalt sidewalks approaching the building? Yes, sir, H.A. Gray has a history.

Wouldn't it be interesting for the Yearbook committee to write these up in future issues? Mr. Lightfoot and the Press and Printers' Club are to be congratulated on their splendid work in making your Yearbook possible. Best wishes for its continued success in recording the happenings, both past and present, of a school which is proud of its students, staff, and activities.

Truly Yours,  
E.B.Ooley.  
Principal.

### EDITORIAL.

Another school term has passed and all the students are working hard, both for the Yearbook and the finals. Our Press and Printers' Club have been racking their brains for happy memories and interesting episodes, which we will recount on the following pages. We hope that you will enjoy the same.

Many thanks to Mr. Lightfoot, whose co-operation as usual, has helped greatly in planning our second Yearbook. We would also like to extend our thanks to the teachers and the Press and Printers' Club for their splendid co-operation and we hope that our book will help recall many happy memories of our past year's activities.

Editor- Bob Graden.  
Assistant Editor- Maureen Bell.

H. A. GRAY STAFF

STUDENT'S UNION

## THE TEACHING STAFF OF H.A. GRAY

There are twenty six teachers on the H.A. Gray staff. If you look at the page in front of this one you will see their pictures. They are;

Mrs. Hansen, whose home room is Grade Nine-A.  
Mrs. Schneider, whose home room is Grade Seven-A.  
Miss Melnyk, the Home Economics teacher.  
Miss Leskew, whose home room is Grade Eight-A.  
Miss Tabbert, whose home room is Grade Seven-C.  
Mr. Ooley, who is the principal of H.A. Gray.  
Mr. Karpoff, the Industrial Arts instructor.  
Mr. McCullogh, whose home room is Grade Seven-B.  
Mr. Ross, whose home room is Grade Nine-B.  
Mr. Lightfoot, whose home room is Grade Eight-B.  
Mr. Brimacombe, whose home room is Grade Nine- C.  
Mr. Alexander, whose home room is Grade Eight-C.

The teachers named above are on the Junior High staff. The people on the Elementary Staff are:

Miss Knapp, who teaches Grade Three.  
Miss Doull, who teaches Grade Two.  
Miss Boyko, who teaches Grade One.  
Mrs. Opstad, who teaches Grade Two.  
Miss Russel, who teaches Grade Three.  
Miss Stevens, who teaches Grade Three.  
Miss Chomay, who teaches Grade One.  
Mr. Ogilvie, the assistant principal, who teaches Grade Six.  
Miss Gauley, who teaches Grade One.  
Mrs. Adams, who teaches Grade Four.  
Mr. Bell, who teaches Grades Five and Six.  
Mr. Whitney, who teaches Grade Four.  
Mr. Stewart, who teaches Grade Five.

When the eight new rooms are completed, there will be an even larger staff. I imagine that the students are happy to see some work being done on the new part. If the old school is completely redecorated, H.A. Gray will be one of the best schools in the city. Students can ask for nothing more than a good teaching staff in a good school.

-----

One of the teachers at H.A. Gray, (this is only rumour) asked the students to list the five most famous men in Canada. One of the boys quickly wrote down four names and then began to look puzzled.

"What is the matter?" asked the teacher.

"I can't think of the name of the left defense." the boy answered.

THE TEACHING STAFF OF B. A. GRAY

There are twenty six teachers on the B. A. Gray staff. If you look at the page in front of this one you will see their photographs. They are:

Mr. Garrison, whose home room is Grade Nine-A.  
Mr. Brown, whose home room is Grade Seven-A.  
Mr. Jones, whose home room is Grade Eight-A.  
Mr. Smith, whose home room is Grade Seven-B.  
Mr. White, whose home room is Grade Eight-B.  
Mr. Black, whose home room is Grade Nine-B.  
Mr. Green, whose home room is Grade Seven-C.  
Mr. Gray, whose home room is Grade Eight-C.  
Mr. Miller, whose home room is Grade Nine-C.

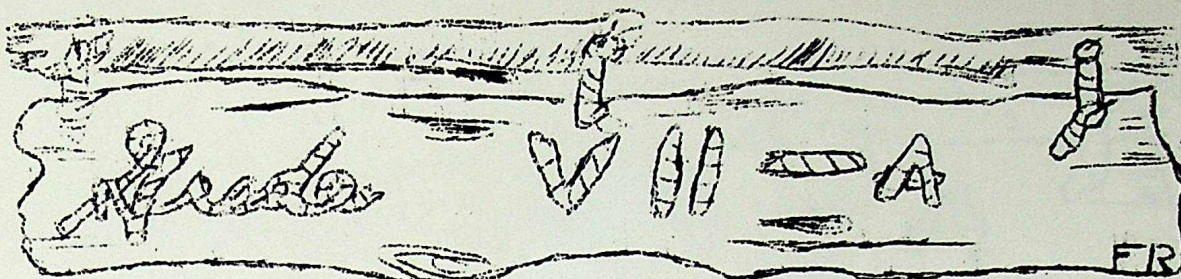

The teachers named above are on the Junior High staff. The staff of the Elementary staff are:

Mr. Brown, who teaches Grade Three.  
Mr. Jones, who teaches Grade Two.  
Mr. Smith, who teaches Grade One.  
Mr. White, who teaches Grade Two.  
Mr. Black, who teaches Grade Three.  
Mr. Green, who teaches Grade Four.  
Mr. Gray, who teaches Grade Five.  
Mr. Miller, who teaches Grade Four.  
Mr. Davis, who teaches Grade Five.

When the eight new rooms are completed, there will be an even larger staff. I imagine that the students are happy to see some work being done on the new part. If the old school is completely reconstructed, B. A. Gray will be one of the best schools in the city. Students can ask for nothing more than a good education and a good school.

One of the teachers at B. A. Gray (this is only rumored) asked the students to list the five most famous men in Canada. One of the boys quickly wrote down four names and then began to look puzzled. "What is the matter?" asked the teacher. "I can't think of the name of the fifth person," the boy answered.

Loretta Adair has been at H.A. Gray for seven years. She dislikes detentions and likes playing.

Stanley Anderson likes some people and dislikes all schools.

"HAVE YOU READ THE LATEST  
IN THE H.A. GRAY YEAR BOOK?"

Handwritten notes and stamps, including "A. 100", "100", and "100".

IN THE H. A. GRAY PEAR BOOKS  
HAVE YOU READ THE LATEST

GRADE SEVEN - B (continued)

NOTE. Due to the fact that some of the Grade Seven students were left out of the original sheet, we are putting their names below.

We apologise to these people for the error made

Don Bigger likes swimming and other sports. He would like to be a Naval Engineer.

John Gardner has been selling yearbooks like mad. He says that he likes Motorcycles and dislikes substitute teachers.

Sharon Kittlitz doesn't like social studies, but she does like math. Her hobby is swimming.

Nina Lindon dislikes poor music and people who talk behind your back. She likes popular and classical music, fair play, plants, picnics and dancing. She does leather work, copper work and basket weaving.

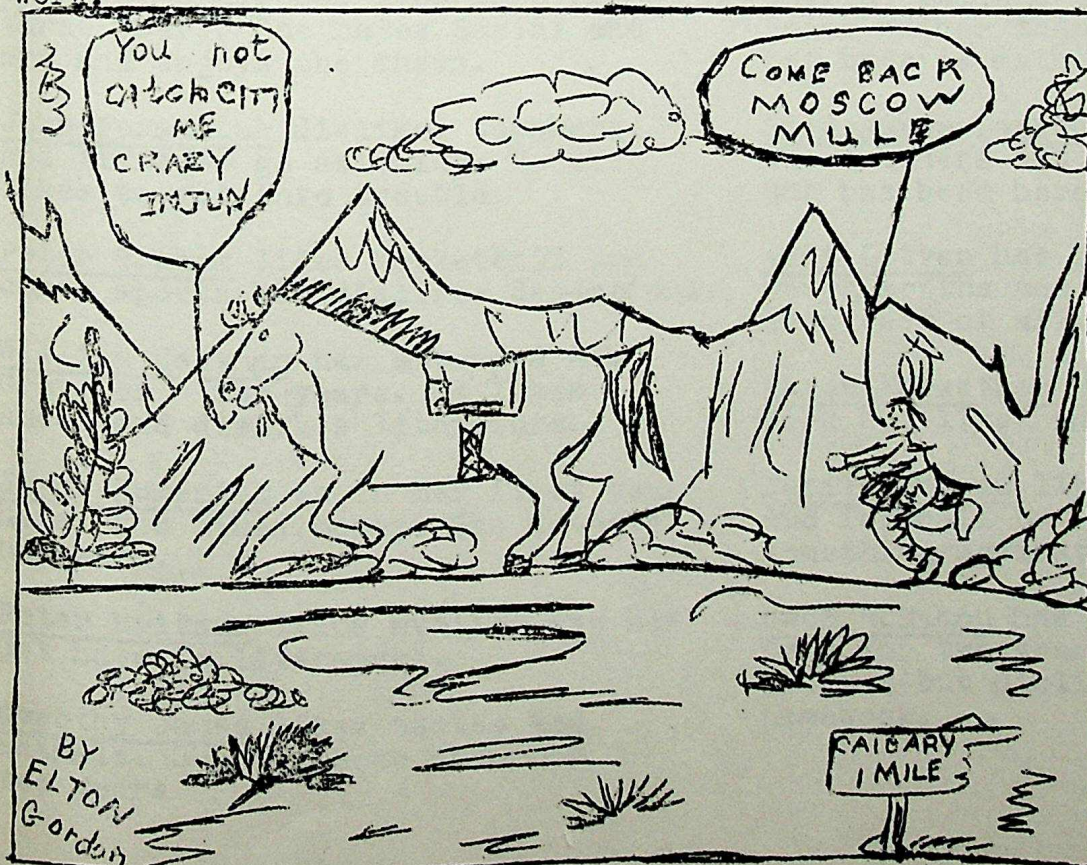

Anne Marriot does cooking, needle-work and rhinestone work. She likes swimming, baseball, football skating and hockey. She dislikes social, language and home-work.

Ethel Moffat says that she likes Alvis Presly and popular music. She doesn't care much for social studies or art.

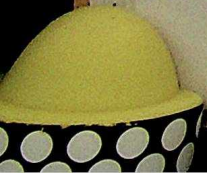

Lauretta Nlawchuk chooses basketball baseball, and swimming as her favorite sports. She dislikes music and a few boys. She wants to be a lady wrestler and a nurse.

Leslie Singh likes airplanes but does not like school.

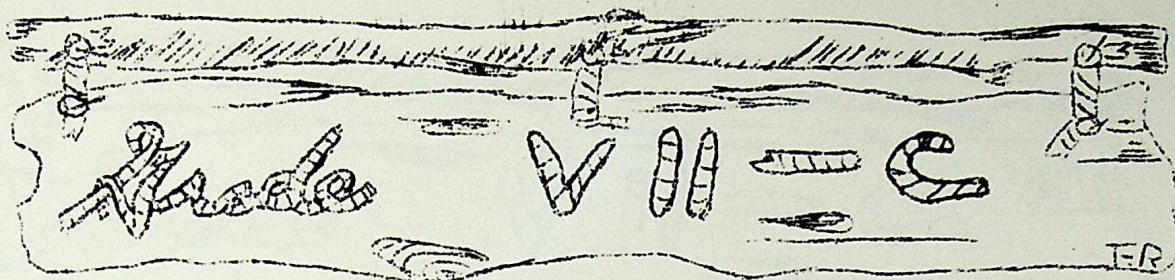

Joanne Snyder likes swimming and skating. She does not seem to like social studies

Doris Adams has attended this school for five months. She likes money and some boys.

Gene Baedak has been here for two months. He dislikes math and likes woodwork.

Karen Baron says that she has too many freckles. She enjoys school but dislikes the boys.

Jimmy Barker hates math and enjoys art or clay modelling. He has attended H.A. Gray for four months.

Barry Brown is a person who likes spelling but hates language.

Gary Budnyk says that he likes squirting water and then getting caught. He likes math but not lit.

Margaret Craig has been here for three years. She hates Social and art and enjoys the shows.

John Fermaniuk dislikes teachers, and likes to go swimming. He also likes to get into trouble.

Peter Graham likes basketball and other sports but disliked detentions.

William Hackman has attended H.A. Gray for two years. He likes shows and dislikes literature.

Joyce Homeniuk is in her first year here, and likes money. She detests homework.

Peter Hritzuk likes hunting and his pet hate is literature.

Dorothy James likes snakes and animals. She has been here for two years

Pearl Kirby likes science, dislikes math, and has been here for six years.

Linda Kirkpatrick has a habit of saying "You know". She likes skating and dislikes detentions.

Janet Woodside chooses skating as her favorite sport and the subject that she likes most is science. She enjoys music and wants to become a nurse. She has spent four years at H.A. Gray but not consecutively.

### THE MICROBE (by H. Belloc)

The microbe is so very small you cannot make him out at all,  
But many snaguine people hope to see him through a microscope.  
His jointed tongue that lies beneath a hundred curious rows  
of teeth;  
His seven tufted tail with lots of lovely pink and purple spots,  
On each of which a pattern stands, composed of forty separete  
bands;  
His eyebrows of a tender green; All these have never yet been  
seen-  
But scientists who ought to know, assure us that they must  
be so....  
Oh! let us never, never doubt what nobody is sure about.

# GRAD F A I E B

Heather Dianne Bisset, aged 14, has attended H.A. Gray for six years. Her hobby is figure skating and her ambition is to be an air stewardess or figure skater. She likes swimming skating and volleyball.

# GRADE NINE

Elizabeth Hughes likes football and skating. Her favorite subject is Science, her hobby is boys, and she collects jewellery and pictures.

Benno Jeske likes soccer. His favorite hobby is hunting, and he also reads in his spare time.

Fay Johnman. The sports that appeal to fay most are skating and volleyball. Her hobby is reading, and she babysits in her spare time. She likes boys, new clothes, debates and jokes.

Dick Lumsden has lived in Toronto, Charlottetown, P.E.I., and Edmonton. He likes the country very much and spends as much time as he can there to photograph and observe birds and animals.

Marilyn McKenzie's favorite sports are basketball and football. Her hobby is dancing. She likes to sleep and go out in her spare time. Ambition..to get out of grade nine.

Robert McMahon's favorite sports are hunting, fishing, hockey, swimming, rugby, baseball, basketball, volleyball pool, handball, soccer and cricket. Hobby..girls. Spends his spare time eating and sleeping. Ambition..to get to grade one.

Morris Olynky is president of the Audio Visual Aids Club. Sports... hunting, fishing, baseball and rugby. His hobbies are leather and wood work. He reads books, goes to shows and plays the violin. Ambition.. to be an airplane mechanic.

Edward Polowy had a bad accident this winter and was in the hospital when these inventories were taken. We hope that you have a complete recovery Edward.

Patricia Scholey. Her favorite sport is football. Her hobby is watching T.V. In her spare time she goes skating and to shows. She just loves school!

Marie Shamper likes to play basketball. Her favorite sports are football and hockey. She plays the piano for a pastime.

Jawneith Sharland's hobbies are collecting jewellery and reading. She likes swimming, to dream, sing and talk in her spare time. Her ambition is to study Ancient Chinese History. She likes boys, arguments, new clothes, and true friends. Dislikes other girls.

Luetta Thiessen's ambition is to graduate from grade twelve and be a stenographer. Since she has had five years piano and one year accordion, music is her hobby. She likes the southside.

Bill: How come you flunked geology?

Jack: Oh, I guess that I just took everything for granite.

Her favorite hobby is photography and collecting jewelry and pictures.

Radio Visual Arts Club. Sports,  
fishing, baseball and  
hobby. His hobbies are fishing and  
wood work. He reads books  
and shows and plays the violin.  
In addition, to be an airplane  
mechanic.

## HOME ECONOMICS

Home Ec. at H.A. Gray will be of great value to us in the future, when we become house wives. All of us learn to cook, sew and do home care. We learn to co-operate and the teaching in proper grooming tells teen-agers how to care for themselves.

Our Home Ec. room has many conveniences, some of them being new fluorescent lights, and one hundred new tote boxes. In the future, we hope to get a new stove to give us more room to cook.

The classes are divided into sections and each class receives Home Ec. once a week for one half a day. We have four weeks to work in a station. The stations are; Housecraft, where we do washing, ironing and house cleaning; Cooking I and II where we do our cooking and baking; PR I and II, where we make toys and serve tea; and the sewing station.

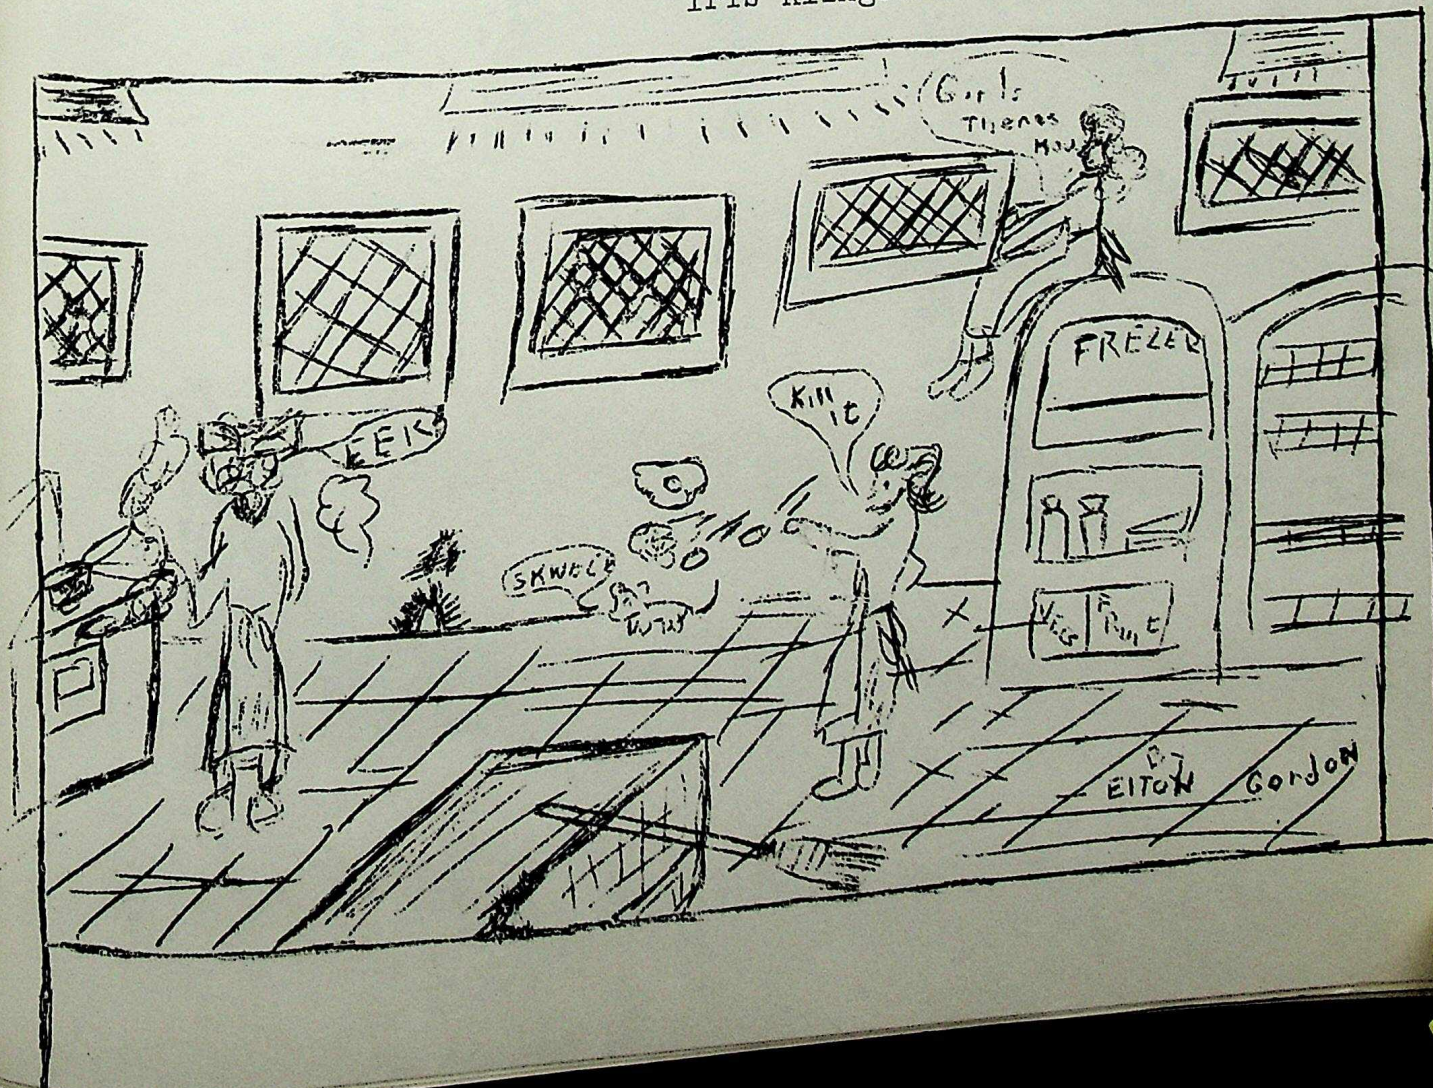

Nutrition work is also done by our Home Ec. classes. The PR I girls prepare nourishing food, which is served to children in Grades I, II, and III who are underweight.

Every girl in Home Ec. makes a toy for a crippled child. Some of the Grade Nine girls make baby clothing which is sent to the "Victorian Order of Nurses" to be distributed to the needy. The toys are sent to crippled children's hospitals.

Some thirty girls had the opportunity of taking part in the Festival Fashion Show at Eastglen High. Twelve of the girls appeared in the Grand Concert.

Miss Melnyk, the Home Ec. Teacher, has been at H.A. Gray for two years. We all enjoy working with her. We all have to co-operate to succeed.

Iris Klingbeil

HOME DECORATION

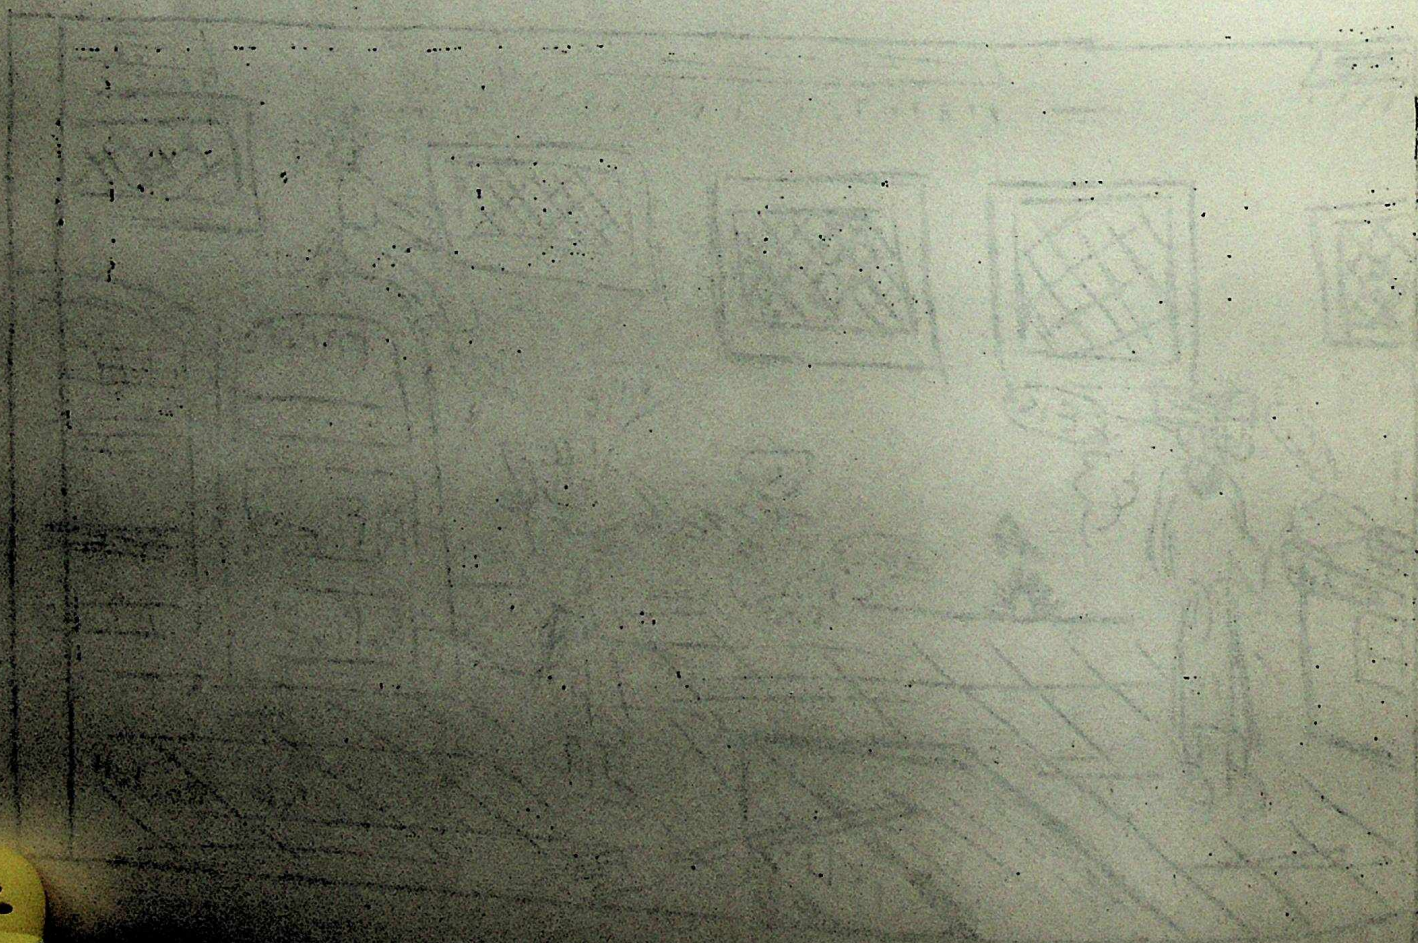

Home Dec. is a new way of looking at the home. It is not just a matter of having a few nice things, but of having a home that is a reflection of the person who lives in it. It is a way of life, a way of thinking, a way of feeling. It is a way of making a home that is a home, and not just a place to live.

The first step in home decoration is to decide what you want. Do you want a modern home, or a traditional one? Do you want a home that is simple and clean, or one that is ornate and elaborate? Do you want a home that is warm and cozy, or one that is cool and sophisticated? These are the questions that you must ask yourself before you begin to decorate.

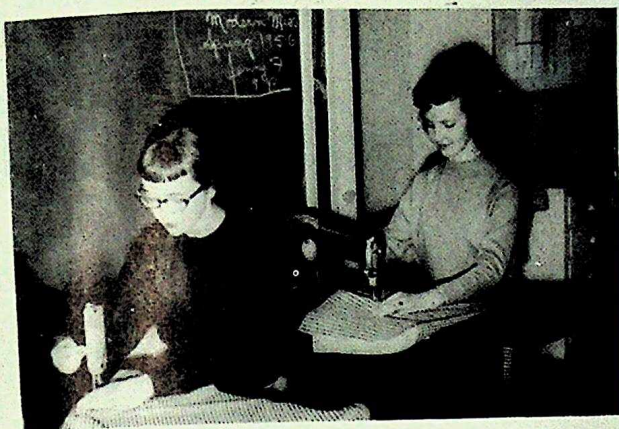

Once you have decided what you want, the next step is to choose the colors. Colors are the most important element in home decoration. They can make a home feel warm and inviting, or cold and unwelcoming. They can make a home feel like a sanctuary, or like a prison. Choose colors that you love, and that will make you feel good.

After you have chosen the colors, the next step is to choose the furniture. Furniture is the backbone of a home. It is the things that you sit on, and that you sleep on. Choose furniture that is comfortable, and that will last for many years. Choose furniture that is in keeping with the style of your home.

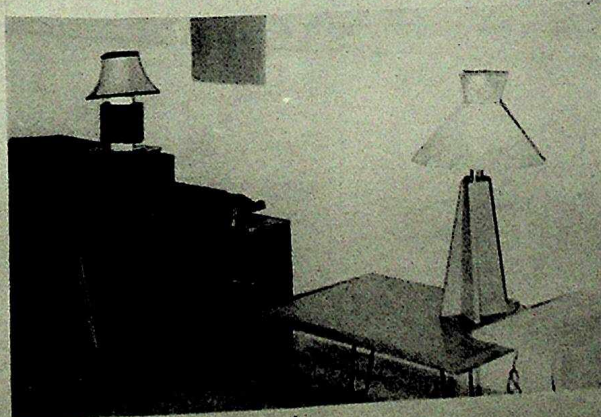

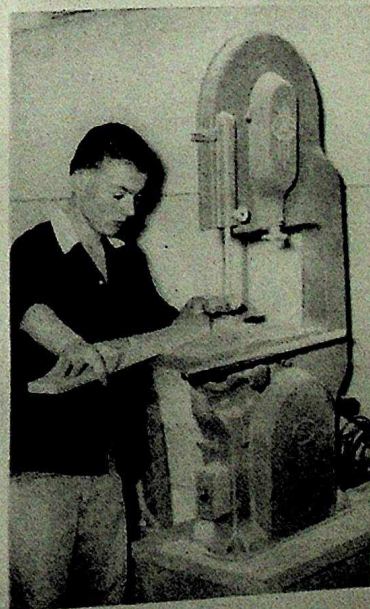

Finally, the most important step in home decoration is to add the finishing touches. These are the things that make a home feel like a home. They are the things that you love, and that you want to show off. They are the things that make a home a home.

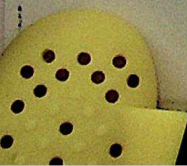

SHOP  
and  
HOUSE EC.

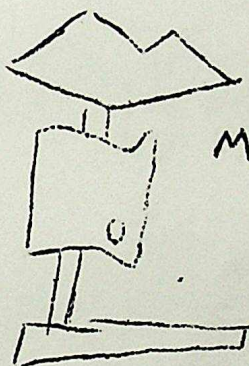

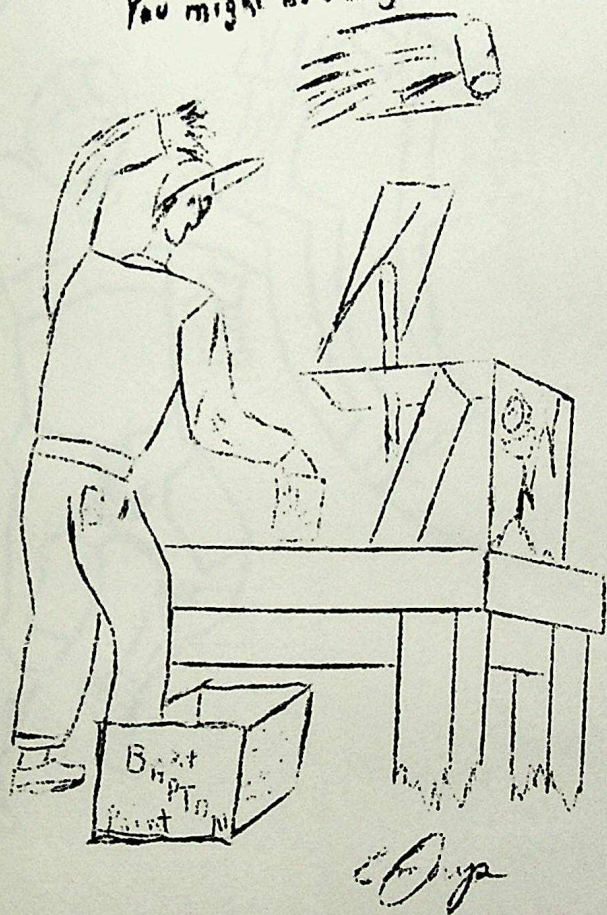

## INDUSTRIAL ARTS

The shop is equipped with many tools such as hand saws, hammers, planes, drills, bandsaws, drillpress, lathes and vices. We have all of the tools necessary for our work. There are four benches or tables in the shop and a group works around each table. These groups are supervised by Mr. Karpoff and some of the projects turned out are; coffee tables, lamps, ashtrays, card tables, corner brackets and others.

Since the year of 1955, the shop has undergone many changes. Mr. Karpoff and the boys have made many changes in the shop and it is now a very nice place to work. After repainting the work benches, and receiving new and better tools, the boys think that they have a very nice shop.

The shop is equipped with a large number of tools, including planes, drills, and a large number of other tools necessary for the work. The shop is supervised by Mr. [Name] and a group of boys. The shop is now a very nice place to work. It is now receiving new and better tools. The boys are very nice shop.

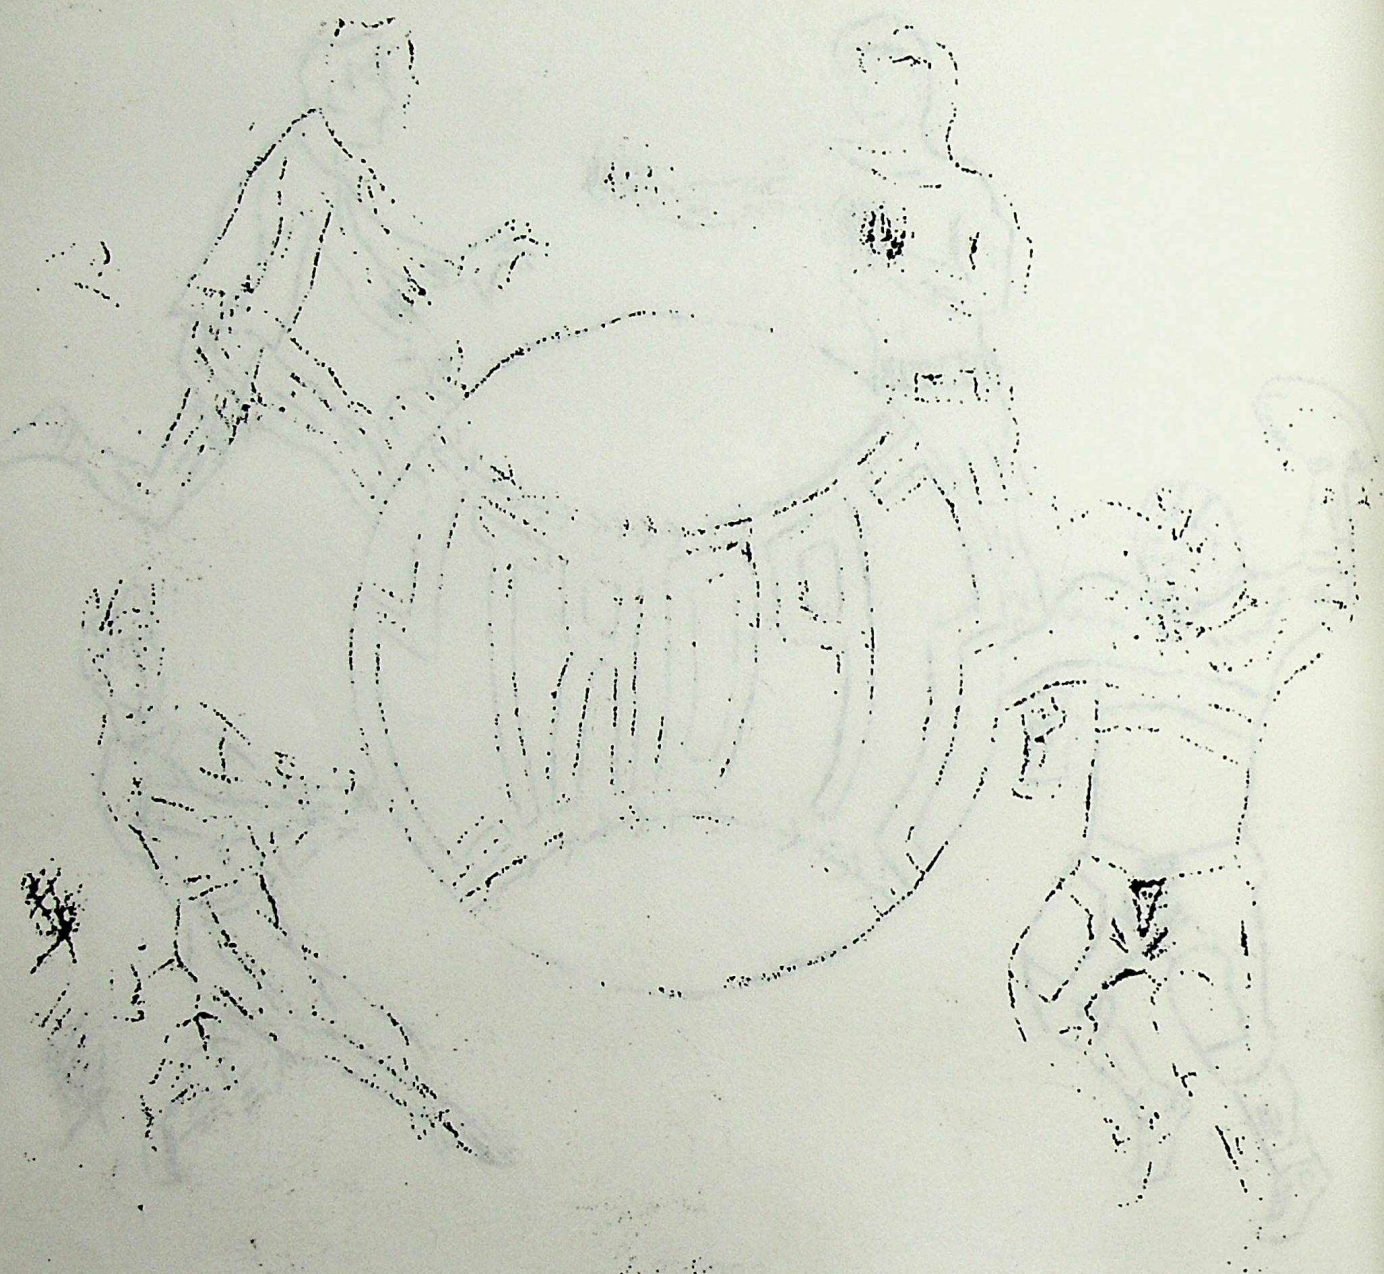

### SOCCKER

This year's Grade Seven and Eight soccer team was not as successful as last year. Under the good coaching of Mr. Alexander, this team ended up in first place at the end of the schedule. However, in the final game between Highlands and H.A Gray, our team was beat two to nothing.

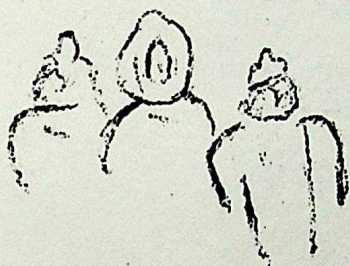

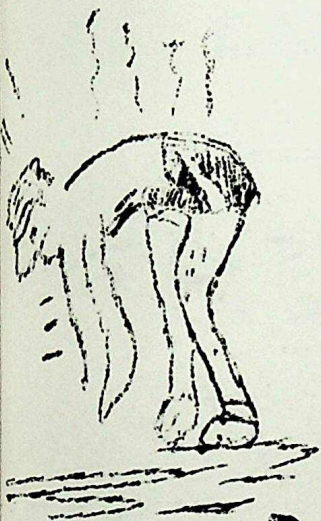

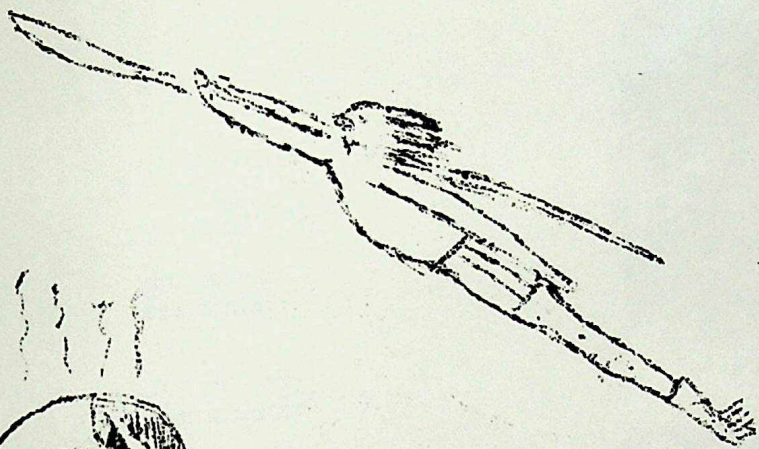

The Grade Nine soccer team was not too strong this year, but they put up a good fight and bottled up some of the better teams in the league. An example of this was the game against McCauley. At the end of the game the score was nothing to nothing. McCauley scored in overtime and won the game one to nothing. McCauley went on to win the league by defeating Highlands in the finals.

ACTIVITIES

### BASKETBALL

Our school basketball team had a very good season this year. At the end of the schedule, we were tied with Parkdale for second place. Each had won and lost four games. A semi-final game was played between these two teams to see who would meet Highlands in the finals. We won that game, eighteen to seventeen and advanced to the finals. Highlands automatically got one game. That meant that H.A. Gray had to win two games in a row to be champions of the league. The first game of the finals was played at the Spruce Avenue School. This turned out to be the last game of the 1956 season for H.A. Gray as they bowed out to Highlands by a score of thirty four to twenty three.

### INTER-HOUSE BASKETBALL

The junior league consisted of boys in Grade Seven. For their first year these boys did pretty well. Stanley Anderson's team won out over Jerry Takacs' by two games to one in the finals. There were five teams in this league.

Grade Eight and Nine made up the senior league which had six teams in it. Jim Knudsen repeated his performances of the previous year and his team emerged as champions for the second year in a row. He beat out Diethelm Adam's team by two games to one.

### GIRL'S BASKETBALL

This is the first year that H.A. Gray has had a girl's basketball team. They were coached by Miss Leskew. They were not too successful this year but they did all right for their first year. They didn't win a game but we hope that they will do better next year.

### BASEBALL

Mr. Alexander is presently holding a baseball clinic in the gym. There are prospects for a good Grade Seven and Eight team and a good Grade Nine team. It is doubtful that we will have an inter-house league. As you may have noticed, they are building an addition to our school and this takes up quite a bit of our playing field.

### TRACK AND FIELD

Mr. Alexander is going to hold a track and field clinic where very good instruction will be given to the boys who are interested. We have some good prospects this year and hope to have a very good inter-school track and field meet at Clarke Stadium. This will be sometime in June.

### VOLLEBALL

Mr. Alexander picked some boys with good ability and formed a school team. They played an exhibition game against Oliver but lost. There will be a volleyball tournament at Eastglen High School on April 25th. and 26th.

## SOCIAL ACTIVITIES

This year, H.A Gray has improved from over the past years and we think that it is the best yet. The student's council has worked very hard and put much time and effort into many successful activities around the school.

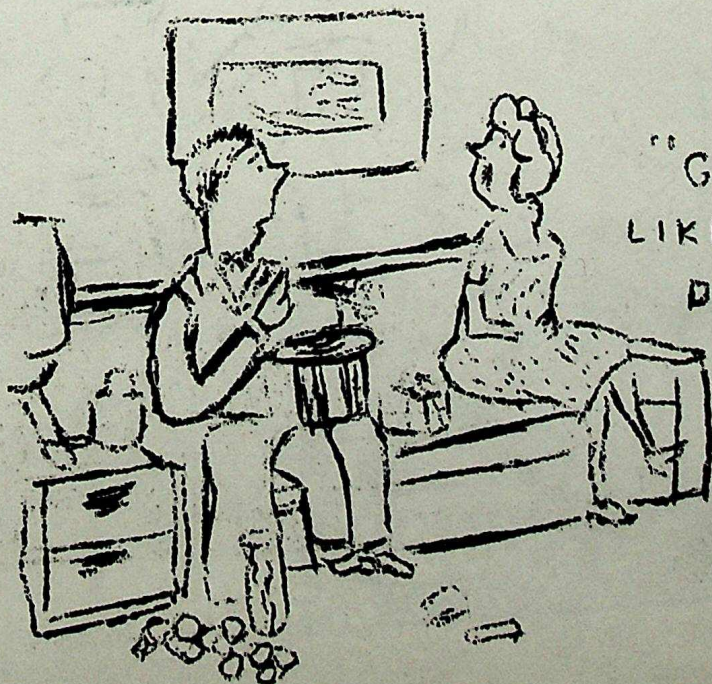

H.A. Gray has had several dances this year and the first one was held on Hallowe-en, an after school dance. Sadie Hawkin's Hop was another after school dance. Our first night dance was at Christmas when we had a lit, the giving of presents and then the dance. Since then we have another after school dance and an evening party. The evening party took place shortly after Easter and was called the "Sack Hop". The Sack Hop also consisted of a lit followed by lunch and a dance. In the future weeks, we are looking forward to another after school dance from four to five in the afternoon. This time we will be allowed to invite some of the students who have attended H.A. Gray in the past three or four years. The final event will be the graduation party held for the Grade Nines who hope to be graduating to high school next year.

Clubs at H.A. Gray were held every second and third Friday of the month. At the beginning of the year, each student was given a slip of paper with names such as Social Dancing, Reading, Sewing and others. They were told to choose the ones that they liked best and then they were put in a club that they had chosen.

Another important event on the social calendar was the H.A. Gray grand concert with the elementary and the Junior High participating in it. Both concerts were huge successes. A lot of time and effort was put into this concert and much credit is due the teachers and students.

In closing, we say to the future student's union, "Keep up the good work."

# MISCELLANEOUS

### CATCHING PIDGEONS

Raising pidgeons is a hobby of my cousin and of mine. We always go to old barns and houses to trap them. To get to them, you have to go through fields and bush and around sloughs. You may be walking along and find that you are in three or four inches of water.

The place where we go the most to catch pidgeons, is not quite a mile from my cousin's house. There is a house there with nobody living in it. No birds can get in there, but right across from it is an old barn and there are always lots of pidgeons in there.

There is a big hole in the attic of the barn where the birds get in. To get up there, you have to climb up the side of the barn. You can get up easily with a box or something to stand on. After we get the holes plugged, it is an easy thing to catch the pidgeons. By shining a bright light on them, you can catch them without any trouble.

After catching all that we can, we stick them in a sack and carry them home, where we put them in a pen. We keep them locked up until we are sure that they will stay home and then we turn them loose to do as they please.

An essay by Norman Liddle.

### A WINTER VISIT.

Mother Nature has once again chosen the time for winter. The air is crisp and nippy and has a very fresh smell to it. The snow crackles under feet as people walk on it. In the distance, you can hear sparrows looking for food. The trees are all covered with soft fluffy snow and the leaves have all disappeared until the spring. As we walk by the frozen pond, we can hear the swishing of skates and the cheerful calls of the children.

As we look into the sky, the dull grey clouds move lazily across it. The sky also has small lines of smoke, coming from the puffing chimneys. The rooves are also covered with snow and icicles hang from the eavestroughs of the houses.

The wind is starting to become stronger now and we can see the drifting snow, flowing along and piling up against houses and fences, covering everything in its path. Later on, people will be cleaning off their sidewalks. As we walk down the avenue, we can hear the swish of car tires and the screech of brakes, as cars skid across roads on the silk-like ice. As we cross the bridge, we see the tired old river, frozen in its tracks, with its banks covered with snow.

As night draws near, the wind is even stronger. It whips around the houses, and sounds like a whistle in the darkness, coming over a hill in the distance. It is very wonderful to visit some place in the winter.

An essay by Barbara Summers.

May your life be like Arithmetic; your hopes added,  
your joys multiplied, your troubles subtracted, and  
and your worries divided.

### A SPRING HOLIDAY ON THE FARM

I think to be on the farm in the spring is wonderful. The air is fresh and clean and every where you look there are little streams. Although it is spring, in the shady spots you can still find little patches of snow. Beside the streams there are small shoots of grass and sometimes weeds. Later on the bigger things begin to show some kind of life. The trees start to bud and come out green. This all takes place outside.

Inside, the housewife is sorting out her seed, which she wants to plant in the garden.

Inside the barn, the farmer is getting the implements ready for spring work. He will be getting out in the field as soon as it dries up a bit more.

In the children's room, the children are studying for the exams which they will get to determine whether they pass or not.

To me, a farm is a wonderful place to be in the spring. Some people may have different ideas, but that is my idea and I intend to keep it forever. I hope you have the same idea of the farm.

An essay by Edith Place.

### AN AUTUMN VISIT

Slowly nature takes her course, year in and year out and the most beautiful time of the year is autumn. Nature is gradually changing the earth's loveliness. The once green leaves are changed to bright and dull colors. There are many colors from which she may choose, but she usually uses brown red and yellow. Soon after, the leaves gradually dry up and float softly down to earth. To walk through a pile of crisp dried leaves, should send a thrill through your bones as it does me.

Another thing that nature changes during the fall season, is the fur of animals, such as rabbits. By changing the furs of animals, she gives them protection from hungry and fierce enemies. Some animals are preparing for a long winter's nap. They fill themselves with nuts and little bugs so that they can sleep till the spring freshness wakes them up. All through the autumn, you can see these little fellows scurrying here and there.

Way up in the sky, the geese are on their way to a new home. The fearless old gander with his pride, flies in front of all of the geese and leads them to safe waters where the hunters are not hiding. Though he is old and wise, he does not always win.

Another very busy person in the autumn is the farmer. Day in and day out, he is working in the fields, bringing in the summer's crops for the animals and his family. He is a busy man as he cares for his stock as well as his crop. While working, he can breathe the clean, crisp air around him.

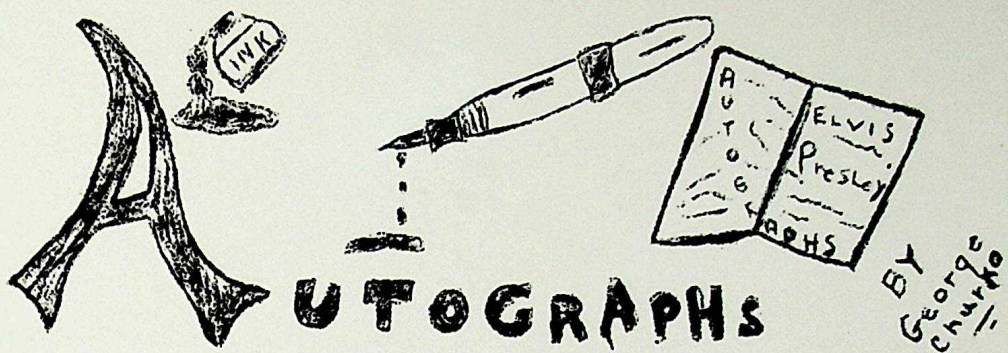

In the house, the housewife is getting the winter's supply of food ready. She is busy canning all of the summer's foods. After she has finished, she works on the winter's clothing. Soon everybody will be ready for nature's next season, winter

An essay by Marnie Sommerfeld
